## CRESTO SAFETY

# **RESQ SOLO X WIND**

## **Evacuation device IQDX**

- Pre-configurated additional friction
- · Automated, intuitive design for effortless emergency descents
- Certified for use in extreme temperatures from -40°C to +60°C

Standards: EN 341 : 2011

ANSI Z359.4-2013

# 

## **Product description**

A compact, fully automatic evacuation device engineered for quick, safe descents from heights up to 300 meters. Light as a smartphone, yet powerful enough to save lives when seconds matter.

RESQ Solo X is the world's smallest and lightest personal evacuation device, designed for ultimate simplicity and reliability in emergency situations. It features a fully automated braking system, allowing for controlled descents at 1.4 m/sec.

With minimal setup — connect and go — Solo X is ready to perform when you need it most. Its compact design, weighing just 3.6 kg for a 100-meter kit, ensures it won't weigh you down, making it ideal for high-risk work environments. Certified for use in extreme temperatures, it's built to last with minimal upkeep, offering a lifespan of up to 30 years.

### Product properties

Product properties	
Brand:	RESQ
Material:	Aluminum , Steel, Aramid
Minimum load (kg):	30
Maximum load (kg):	141
Maximum number of users:	1
Minimum working temperature (c):	-40
Maximum working temperature (c):	60
EN-standard:	EN 341 : 2011
Other standards:	ANSI Z359.4-2013
Notified body:	0511, AUVA, Allgemeine Unfallversicherungsanstalt Sicherheitstechnische Prüfstelle - Wienerbergstrasse 11 1100 Wien, Austria
Annual inspection:	Yes, every 12 months
Life span:	15 + 15 years. Product lifecycle 15 years + 15 after service
RFID:	Yes
Warranty:	2 year
