Product description

This is a customised version of the Energy Pro harness, designed for work in wind turbines.

This is a customised version of the Energy Pro harness, designed for work in wind turbines. It is light weight and robust, making it a great choice for workers wearing their equipment for long periods. Light weight means more energy saved for important tasks!

It is simple to put on and remove after climbing, & is equipped with fastenings for tool holders and accessory bags.

The harness support belt features a back plate that decreases friction and adds durability while climbing against a structure.
