

RESCUE ROPE-GRAB

Rope grab for rescue

- Adaptable to a wide range of ropes
- Light weight
- Easy to use

Standards: **EN 567 : 2013**

Product description

Rescue Rope-Grab is used together with your rescue equipment for rescues from fall arrest systems.

Rescue Rope-grab is an accessory for rescue equipment with lifting function that allows attachment of fall arrest equipment such as loaded rope 9-16mm, webbing, wire 4-6mm and flexible webbing. This to be able to make an easy and safe rescue if an accident occurs.

The rope grab connects directly to the rescue equipment. Thanks to its aluminum material the weight is light but still a powerful and sustainable product.

Product properties

Brand:	RESQ
