Product description

Fusion Pro Wind is designed with wind power technicians in mind, this ergonomic harness ensures safety and comfort for high-altitude work.

The Fusion Pro Wind harness, developed in collaboration with industry professionals, offers an ergonomic design that evenly distributes weight across the body. This harness is tailored to meet the rigorous demands of wind turbine work, with features like a front connection point suitable for helicopter lifts and robust components that meet ANSI certification standards. Available in S/M and L/XL, it provides flexible adjustability for a perfect fit. The harness also includes coated D-rings and a self-luminous rear anchorage point for enhanced visibility in low-light conditions, using durable polyester bands and top-quality steel components for long-lasting performance.
